

Through the ARTS

Summer Institute

July 22-24, 2009 -- Orlando

This three-day **arts integration Institute** will ignite your passion for building strong schools and communities Through the ARTS. School teams comprised of administrators, classroom teachers, arts teachers, and parent advocates as well as individuals (administrators, teachers, teaching artists, and community arts organizations) are invited. Sessions will demonstrate the “why” and “how” of integrating the arts throughout your school programs. The Institute will provide the necessary classroom-tested successful strategies and materials for making excellence Through the ARTS a reality in your school. Dynamic arts integration experts will provide hands-on experiences with all art forms; teachers and administrators who have successfully implemented the Through the ARTS program will share their successes.
